Financial Benefits:

- Lower operational costs
- Lower maintenance costs
- Rebates and Tax Credits

Fueling your EV

EV-2A Rate

~\$1.60*
per e-gallon

Business EV Rate

~\$1.80*
per e-gallon

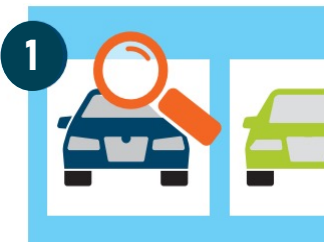

Public Charging

Pricing depends
on station

*Depends on vehicle type, season, and time of day for charging

PG&E is here to help!

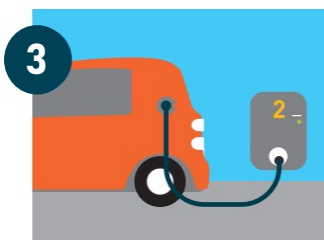

Start your research

- Use the [EV Checklist](#) for resources to learn more about EVs
- Visit PG&E's Electric Vehicle [webpage](#) to learn about the different EV models and types currently available

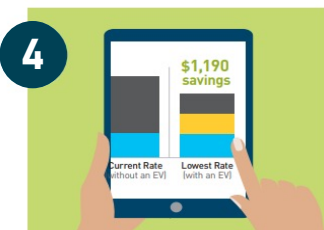

Understand the costs and the available incentives

- Use the [EV Savings Calculator](#) to estimate costs, savings, and incentives
- Check out [Access Clean California](#) to find state-funded programs and benefits

Learn about your charging options

- Learn about charging options that will suit your needs and the steps to install a charger in your home at pge.com/evcharging.
- Use PlugShare's interactive map to plan your trip and find options for charging on the go at plugshare.com

Decide on your rate plan

- PG&E offers special rates for EV owners in addition to standard residential rates. Find a rate that best fits your needs at ev.pge.com
